Morse Serves as Counsel to FIGUR8 in Acquisition by Myant Medical Corporation

May 27, 2026

Morse represented FIGUR8, a platform focused on measuring musculoskeletal health and injury recovery, in its recent acquisition by Myant Medical Corporation. This strategic partnership aims to improve clinical decision-making, accelerate recovery timelines, and support more proactive and preventative models of care.

FIGUR8's platform evaluates musculoskeletal conditions through wearable sensors and AI-driven analytics that quantify injury severity, track recovery, and deliver data-driven insights to clinicians. Combined with Myant's SKIIN platform, the integrated technology will create a seamless, end-to-end care experience spanning in-clinic diagnostics, continuous at-home monitoring, and personalized recovery and care pathways, helping bridge the gap between diagnosis and recovery.

Morse attorneys Laurie Burlingame, Jon Gworek, Rebecca Alperin, Dave Czarnecki, Matt Mitchell, and Monica Sax served as counsel to FIGUR8 in this transaction.

Additional details on the investment can be found in Myant's press release.

Morse focuses exclusively on the core legal services that businesses need to succeed, helping businesses of all sizes — from startups to Fortune 1000 companies — in the service areas of corporate, intellectual property, licensing, employment, taxation, and litigation.
