

Attorney Crystal Komm Joins Morse

October 19, 2026

Morse is pleased to welcome Attorney **Crystal Komm** to the firm. Crystal joins our **Patent Practice Group** as Counsel.

Prior to joining Morse, Crystal spent 14 years at Goodwin, where she served as Counsel in the Life Sciences Group. She brings extensive experience advising emerging and established pharmaceutical, biopharmaceutical, biotechnology, and medical device companies on a broad range of intellectual property matters, with a focus on patent prosecution and patent portfolio development.

Crystal's experience spans the product lifecycle—from early-stage research and clinical development through regulatory approval and commercialization—and includes building global patent portfolios, conducting freedom-to-operate and patent landscape analyses, preparing non-infringement and invalidity opinions, and developing patent strategies to maximize product exclusivity, including through patent term extensions and Orange Book listings. She also provides patent due diligence and strategic IP counseling in connection with public offerings, financings, mergers and acquisitions, licensing transactions, and other strategic matters. Crystal writes,

"I am excited to join Morse, a firm known for providing sophisticated, business-focused counsel to life sciences companies. Morse's collaborative, cross-disciplinary approach is an ideal fit for my practice, and I look forward to working with my new colleagues to help clients develop and protect the intellectual property that drives their businesses."

We invite you to contact **Crystal** directly.
