Lisa Warren Named Go To IP Lawyer by Massachusetts Lawyers Weekly

August 27, 2025

Morse is pleased to announce that Lisa Warren has been named a Go To IP Lawyer for 2025 by *Massachusetts Lawyers Weekly*! This feature was created in 2020 to showcase leaders in the Massachusetts legal community by practice area. Each lawyer featured was nominated by their colleagues and chosen by a panel from Lawyers Weekly.

As Managing Partner of the Firm for the past eleven years and leader of Morse's Patent Practice Group and Specialty Department, Lisa has built a distinguished career at the intersection of intellectual property and innovation. Her patent practice spans a wide range of life science technologies — including pharmaceuticals, diagnostics, medical devices, and biotechnology (with a particular focus on cell and gene therapies). She also has significant experience with emerging technologies such as AI-driven drug discovery, digital health, and personalized medicine.

With her leadership in patent law and commitment to helping clients align IP strategy with business goals, it comes as no surprise that Lisa was named one of this year's "Go-To" lawyers. Please join us in congratulating her on this well-deserved recognition and wishing her continued success!
