

Mergers & Acquisitions

Deal Advisors

Our veteran team of M&A attorneys provides comprehensive guidance to purchasers and sellers of businesses through all aspects of M&A transactions. From initial preparation through structuring, negotiation and documentation, our zealous representation throughout the deal reflects our profound understanding that these are often seminal events in the life of a company; we offer our clients the insight, expertise, and business acumen so necessary for a satisfying conclusion.

Our team has extensive experience guiding clients through the complexities of M&A transactions in markets as diverse as analytical instruments, software, SAAS, industrial controls, pharmaceuticals, biotech, medical devices, transportation, professional services, and oil & gas.

Over the last decade we have represented hundreds of publicly-traded and privately-held companies, both buyers and sellers, in transactions valued from several million dollars to hundreds of millions of dollars; between 2016-2019 we completed 78 strategic and private equity buy-side and sell-side transactions for a total of \$1.5 Billion. In structuring and negotiating the deals, we consistently helped our clients focus on key issues in the areas of risk allocation, tax, securities, and antitrust.

We regularly represent private equity, venture capital, and angel investors with respect to their interests in the sale of portfolio companies, and we routinely advise special committees of boards of directors in considering management buyouts and related party transactions.
