

Jeannie Wu, Ph.D.

Counsel

Direct **781-697-2232**

Fax **781-622-5933**

jwu@morse.law

Jeannie is an experienced biotech patent attorney whose practice focuses on U.S. and foreign patent prosecution, opinion work, and client counseling in the life sciences industry.

Jeannie has experience in a wide variety of subject matters including gene and cell therapies, DNA and protein vaccines, antibodies, peptide-polymer conjugates, diagnosis and treatment of various disorders, stem cells, genetically modified and genome edited plants, biopolymers, and medical devices. She has worked with start-ups, pharmaceutical companies, universities, and research institutions.

Prior to joining Morse, Jeannie practiced patent law at Cesari and McKenna LLP and Fish & Richardson P.C. She also held the position of Scientist at a biotech company before attending law school.
